

## Search me

By: Walaa Sbait

Search me am an Arab, I'm a walking bomb  
Straight up from the land of martyrdom  
Check out every airport,  
Check out every checkpoint,  
Search me am an Arab am a walking bomb,

And I'm walk'n and am walk'n, walk'n with no stop'n  
In my palm a branch of an olive tree,  
And on my shoulder,  
Holding my coffin  
So search me am an Arab I'm bomb that will never stop tik'n tik-tak, tak-tik tik'n  
talk'n  
Search me am an Arab  
I'm a bomb that will continue walk'n

I am a terrorist?  
Yes I am,  
But no explosive belt around my waist  
No bomb under my arm  
No RPG over my shoulder,  
I'm just a 21<sup>st</sup> century terrorist  
In the army of consciousness  
I'm a soldier,

Yes I'm a terrorist,  
But I'm one of those that you'll never expect  
I'm one of those whom out of your mind  
You'll never get,  
I'm one of those who will culturally-electrically shock you,  
Where you'll go:  
-daaaaaaaaaammn he's human no shit!,  
And it will stick there it will stick  
The image of humanity in the pain of that terrorist,  
In your mind it will stick,  
-a human friendly terrorist?!..  
Wow... that image I'll never forget!!!

I'm of the 21<sup>st</sup> century ones,  
Yah... I'm a terrorist  
But no riffle on my back  
No explosives in my bag  
No TNT in my pants  
I just need a one shot of chance,  
With that one shot  
I'll shoot you a bullet of poetry  
Ill assassinate you with a monologue  
Ill suicide bomb you with a freestyle movement dance

And ill torture you with the rhythm of my peace-drums  
And demolish you're house with a song out of my folk,  
Yeahhh am a terrorist  
But I am of a different kind,  
I am of the 21<sup>st</sup> century ones  
Many of me you will find,  
Hope I'm not terrorizing you  
Ain't that my try,  
Maybe you where shocked from the humanity between me and you  
And realized you've been milking lie from heaven's sky,  
Come,  
Come and sip with my some of our Arabic coffee  
Ain't that a kidnap attempt,  
Come,  
Chill with me under my humanity tent  
Search me...
